(LCN Connections Issue 7 - May 2013)

DVD REVIEW:
WISDOM FILMS

WisdomFilms™, a new genre in contemplative, life-enhancing media. The short films on the DVDs can offer a refreshing way to reduce stress and restore balance to your mind, heart, and soul. By featuring spoken wisdom from today's most acclaimed voices in self-help and spirituality, these film sanctuaries provide experiences of pro- found beauty and a connection to what matters most.

Each WisdomFilm starts with inspiring messages provided by beloved personalities such as bestselling author Deepak Chopra, success coach Bob Proctor, Buddhist teacher Thich Nhat Hanh and spiritual teacher Ram Dass, along with other noted Wisdom Keepers of our time. Scored by Emmy award-winning composer Gary Malkin, the musical messages are then set to

the breathtaking imagery of award- winning cinematographer, David Fortney, providing a "media alchemy" that you'll want to experience again and again.

At a time of global fear and anxiety, these "media-tations" offer an antidote that can inspire and awaken all who experience them.

"These inspiring short films can help us connect to our deepest selves to the vast world we live in. No service could be more important. A multi-sensory feast for the senses!"
